

CHANGE YOUR WATER, FOR LIFE™!

Four Good Reasons to Drink
LIFE Ionizers™ Water

LIFE™ Ionized water is:

Alkalinize

Reduce the acidity in your body caused by the modern diet, stress, air pollution, and even bottled water.

Anti-Oxidize

Use negatively charged ions to neutralize active oxygen (free radicals), known to contribute to aging and disease.

Hydrate

Improve cellular hydration with micro-clusters of water molecules that pass more easily through cell walls than regular water molecules do.

Oxygenate

Increase oxygen in the cells with micro-clustered water that carries more oxygen and nutrients through the cell walls.

Did you know...

1. Bottled, filtered, distilled, and reverse osmosis water are “clean” but “dead,” retaining few if any minerals necessary for good health. They also are acidic.

2. A diet of meat, dairy, grains, and fruit is extremely acidic. Mental or emotional stress can add to the acidity of the body.

3. An overly acidic body has been linked to many medical conditions, including acid reflux, high blood pressure, obesity, diabetes, and more?

4. You can transform your tap water into healthful alkaline, ionized, anti-oxidant water for just pennies a day.

5. Americans send about 40 billion water bottles to landfills each year. By creating your own purified, alkaline water, you can avoid contributing to the plastic bottle pollution.

**SIMPLY CHANGE YOUR WATER,
AND SIGNIFICANTLY CHANGE YOUR LIFE!**
